

3 Ways Scammers Try to Steal Your Private Information

Phishing - scam sent through email
→ look like a real company www.walmart.com

Vishing - scam phone call

Smishing - scam text message

Protect Yourself:

- * never click on links (email/text)
- * don't give any private information
- * log into the website or use a phone number listed to check if it's real
- * block fake numbers/emails and report to the anti-fraud website
